The Director stated he had no intention to moving  
until such time as we received "political authority" to do so. Mr.  
undertook to issue instructions to the appropriate field stations  
immediately and advise them that clearance for this move will be issued  
from Headquarters.

25X1X4

25X1X4

Referred to a cable from [redacted] and discussed his proposed reply  
thereto. General Cabell suggested that if it was decided to dispatch this  
reply, the policy contained therein should also be brought to the attention  
of the planners here at Headquarters. The Director approved. In connection  
with the policy outlined in the above-mentioned reply, [redacted]  
noted it appeared well within our Charter, as indicated in NSC Directives  
which he had had opportunity to read during his present visit to Headquarters.  
He also said that he had greatly benefited by reading these papers and  
suggested they be made available, as appropriate, to other Senior Representatives.  
The Director approved, provided safeguards are taken to protect security.  
Mr. [redacted] said action was under way to provide NSC Directives to field  
stations.

Mr. Dulles (Continued):

25X1A9a

f. Noted that [REDACTED] had called him regarding a split report by the Watch Committee and stated he had advised [REDACTED] that there was no objection on his part to such reports. General Cabell noted the report in question had already been published.

25X1A9a

Colonel White:

Noted the staff of the Senate Appropriations Committee had requested the following: information on the number of Supergrades in CIA; obligations and expenditures; and the number of motor vehicles operated by the Agency. In connection with the latter, Colonel White noted that a breakdown of the number of domestic and foreign vehicles had not been requested. The Director approved furnishing the above information to the Committee but stated, however, the number of motor vehicles should be broken down as to domestic and foreign with a statement as to the reason why it was necessary for the Agency to maintain a large number of cars, trucks, etc., overseas; i.e., clandestine activities. Colonel White and Mr. Kirkpatrick undertook to work out an appropriate statement which will be classified in view of the operational information contained therein.

Mr. Sheldon:

Referred to a discussion at the Deputies' Meeting on Friday, 29 January 1954, respecting a report on Soviet Block import and export of motor vehicles requested by McGraw-Hill, and stated he did not believe this information should be made available since it would establish a precedent and therefore leave us open to similar requests from other publishers. Mr. [REDACTED] pointed out that at the above-mentioned Deputies' Meeting, it had been agreed that this information would be furnished through the [REDACTED] Office without attribution to CIA since Mr. Amory had indicated that McGraw-Hill had been and would continue to be of material assistance to the Agency. Mr. Sheldon, in response to a query from the Director, stated we were not being pushed for this report and, in fact, he doubted if there was anything to be gained by making it available. The Director stated if these, therefore, were the facts this matter would be dropped.

25X1A9a

25X1A6a

Mr. [REDACTED]

Drew attention to a cable from the Senior Representative, [REDACTED] respecting an approach to Molotov by the International Veterans Association. After some discussion the Director stated he saw no objection to this proposal.
